Public Transportation in Kaizu City

Public transportation in the city consists of community buses, On-Demand Transport, Yoro Railway, Meihan Kintetsu buses, and taxis.

Community buses operate on four routes (Ochobo Inari Line, Ishizu Line, Komano Line, and Kisosansen Park Line) and primarily provide transportation between key locations within the city.

The On-Demand Transport has 420 stops within the city and 7 stops outside the city (as of April 2026), and operates in areas where community bus services are not available.

From April 2025, a trial operation will be conducted on the Kaizu–Tsushima Line to improve access to the Nagoya metropolitan area by introducing larger-capacity vehicles (55-passenger capacity) or small buses (33-passenger capacity).
